Professional Summary

Junior Developer with hands-on experience in Node.js, .NET and React. I've worked with CRUD operations, consuming APIs, and SQL databases management through academic and personal projects. I'm looking for an opportunity to grow professionally and build experience in the field of software development.

Skills

HTML | CSS | JavaScript | Tailwind | PHP | React | Node.js | .NET | SQL | Teamwork | Problem solving

Experience

Social Service

Jun 2025 - Nov 2025

F.C.F.M. Unidad de Servicios en Innovación y Tecnología USIT (Formerly known as CSI)

- Customized approximately 80% of a web application interface using PHP, updating the visual identity across multiple modules.
- Participated in system maintenance and UI adjustments.
- Contributed to creating educational material for a Flutter course, making 4 presentations and an exercise guide.

Education

Bachelor 's degree in Multimedia and Digital Animation, U.A.N.L. Facultad de Ciencias Físico Matemáticas 2020 - 2025

Languages

Native Spanish | Conversational English

Featured Projects

Web portfolio (github.com/andreabrg15/Proyecto-Portafolio)

Jun 2026 - Jul 2026

- Built my web portfolio to show some of the featured projects I've worked on.
- Divided the website in 3 navigation routes, and achieved to include direct mail sending through a third party API.
- **Stack:** React, Tailwind CSS, JavaScript.

Movies API (github.com/andreabrg15/MoviesApi)

May 2026

- Developed a REST API of movies with 6 endpoints for CRUD operations.
- Used Entity Framework Core to manage SQL database access.
- **Stack:** ASP.NET, C#, Entity Framework Core.

Web platform to share videos (github.com/jjulian0n0/PrograWebII_Front)

Sep 2024 - Nov 2024

- Collaborated to develop 5 endpoints for subscriptions feature between users.
- Integrated approx. 20% of backend consumption in frontend and add validations to avoid duplicates in playlists.
- **Stack:** Node.js, Prisma ORM, React, JavaScript.

Habimate (github.com/WikkArt/PIA_BDM)

Aug 2024 - Dec 2024

- Collaborated in a 4-person team to develop a web platform of educational courses.
- Implemented course enrollment and kardex visualization features, working in a MVC model.
- Built sales reports for instructors using stored procedures, functions and views in MySQL.
- **Stack:** PHP, MySQL.
